

REVIEW ON THE SANITARY REPORTS RECEIVED
FROM DISTRICTS FOR 8 MONTHS FROM
MAY TO DECEMBER 1898.

No. 8169-76, dated, Bangalore, 13th March 1899.

The Plague Commissioner regrets to observe that though subsequent to the issue of his Circular No. 217-96, dated 15th February 1898, inviting the attention of the Deputy Commissioners to the necessity that existed for placing all Towns and Villages in their jurisdiction in a perfectly sanitary condition, the Deputy Commissioners were requested so far back as 12th March 1898 to submit fortnightly reports of measures adopted for the sanitation of villages so as to reach this office not later than the 20th of the month and 10th of the following month, some of these officers have not been submitting their returns punctually, as will be seen from the accompanying statement marked A which shows the number of returns still due to this office:

2. Again, the statement showing the number and names of villages in which the objectionable practice of burying or burning dead bodies by the sides of streams, reservoirs, etc., exists, has not been received for certain taluks in the Kolar, Tumkur and Mysore Districts, while the Deputy Commissioner of Chitaldrug submitted the same for the entire district only on the 4th instant after several reminders had been issued from this office.

3. Many of the returns received have not been prepared with any care and attention, as is evident from the fact that names of villages in which burning or burying of the dead bodies by the sides of streams, etc., is said to have been put a stop to, are repeated in more than one return apparently merely for the sake of filling up the statement. It will be observed from the statement marked B that the number of villages in which the objectionable practice is reported to have been put a stop to is larger in all the districts except Bangalore, than the number of villages in which the practice was reported to exist as per talukwar statements separately submitted by the Deputy Commissioners. In some cases also, the names of villages which did not find a place in the latter, are for the first time inserted in the fortnightly returns.

4. In column 8 of the return showing the names of villages in which action has been taken under clauses a to j of para 4 of the Circular referred to in para 1, it not infrequently happens that the names of a number of villages are inserted without any remark as to the actual improvements made therein though the heading requires that details of work done should be specified.

5. From the above it is clear that there is not sufficient scrutiny of the talukwar returns by the officers responsible for the sanitation work, and that the returns submitted from the districts to this office are not prepared with the requisite care to admit of any reliance being placed in them. Deputy Commissioners are therefore requested to submit within a fortnight from this date, complete information in the accompanying form as to the amount of work done in each taluk under the several heads specified therein from 16th February 1898 to end of February 1899, to enable the Plague Commissioner to see to what extent effect has been given in each district to the instructions issued by him.

6. It has been remarked by a Deputy Commissioner that the repetition of names of villages is necessary owing to the fact that part only of the work to be done is effected in the fortnight. But the Plague Commissioner would observe that in such cases the actual work done during the fortnight should be clearly specified in the report.

Deputy Commissioners are also requested to issue strict orders for the careful and correct preparation of these returns in future in the form referred to in para 5 and for their punctual submission to this office by the 25th of the month and 10th of the month following that to which the return relates.

A.—Statement showing the number of Sanitation Returns not received from Districts.

| No. | Name of District. | Name of Taluk. | Returns not received for the fortnights ending— | No. of reports not received |
